## **RAINBOW IN THE RAIN**

We met one autumn afternoon  
Inside our college lecture room  
When I sat by your side that day  
And when it came to take a break  
I wondered whether I should make  
My way to where your table lay

*Calling out your name  
My rainbow in the rain  
Wonderin' when we'll be together again*

And so I shared a cup with you  
While we exchanged our thoughts and views  
And somehow felt the way you do  
When you sense somewhere deep inside  
A feeling just can't be denied  
And you know where it's leading to

*Chorus*

When I went back to your place that very first night  
We talked of the loves we'd known and things we'd been through  
And we were still awake by the morning's first light  
I guess it was then I knew I'd fallen for you  
As I look back on all we've known  
I think of how the years have flown  
And through it all the love you've shown  
But now my work has taken me  
So far from where I want to be  
And I can't wait until I'm home

*Chorus*

## **KISS IT BETTER...OR KISS IT GOODBYE**

When we look from a distance  
We don't see things so clear  
And where could have stood a good friend  
We see someone we fear

They're seen as different from us  
No friend, more like a foe  
And soon they become the scapegoat  
For each and every woe

*Seems to me we're much the same  
And no one side is all to blame  
So why don't we try again?  
Kiss it better or kiss it goodbye  
Kiss it better or kiss it goodbye*

Why can't we see the people  
That we view from afar  
Are in their way a counterpart  
To whatever we are?

*Chorus*

Every act of forgiveness  
May seem like giving in  
But to reconcile a difference  
Is to let wisdom win

*Chorus*

## **KINCORA**

We look down upon the dale  
From our front window  
See the castle up above  
Our back hedgerow

*And I will always treasure  
What we have here together  
I'll cherish this forever  
Whatever comes our way*

We walk out of the door  
And up to High Tor  
See the cable cars that go  
To Masson once more

*Chorus*

We step inside a cave  
Cut in the limestone  
Then back to the bungalow  
Where we've made our home

*Chorus*

Kincora would be cold  
When those north winds blow  
Without you here to hold  
And feel our love flow

*Chorus*

## **NEW LIFE**

*New life, everywhere I see new life  
With each death a rebirth,  
A heaven on Earth  
A new life*

There'll only ever be  
One of you for eternity  
But you are a part of all that has gone before  
And all to come forevermore

*Chorus*

We'll only ever see  
A brief glimpse of this mystery  
But while we're here we may learn from those long since gone  
And to those still to come, pass something on

*Chorus*

No one can ever know  
What for us fate may have in store  
But what we make of whatever may come our way  
Gives meaning to this mortal clay

*Chorus*

## **WITHOUT A WORD**

Without a word, without a sound  
I looked around and she was nowhere to be found  
Without the note she never wrote  
No reason why, no last goodbye

*Why did she go without letting me know?  
Just packed her bags and walked out the door  
What made her feel she could no longer stay?  
Just left her keys and went on her way*

Without a trace upon her face  
That final time to say she'd no longer be mine  
Without a sign, it seemed just fine  
No way to tell this was farewell

*Chorus*

## **DON'T LOOK BACK**

*Don't look back, just put it down to fate  
Don't look back, for now it's far too late  
Tomorrow is a brand new day  
So come on, get up and on your way  
And don't look back*

Sometimes you think you've made a good start  
Then somehow it all seems to fall apart  
Just when you think this is the one  
You end up wondering just where it's gone.

*But... Chorus*

I was down and out and feeling low  
Thinking about the way things go  
First they say yes, then they say no  
You end up wondering, "Why is it so?"

*But... Chorus*

## **MAKING WAVES**

You always seemed so out of reach  
Til the day we went down to the beach  
We looked out over the open sea  
No one around, just you and me

And while the waves gently caressed the sand  
You looked at me and took hold of my hand

Tracing the lines as my palm you read  
I can't remember much of what you said  
But your finger softly stroking my hand  
Was all I needed to understand

And as the Sun shone down on that summer day  
The moon swelled the tide and the sea filled the bay

## **CATCH A RIDE**

While I'm here, waiting on the outside  
Don't steer clear, come and let me in  
Here am I, looking for your signal  
Don't fly by, take me for a spin

*Can I catch a ride?  
Let me come inside  
It would be so good  
If you only would*

While I'm here, standing by the roadside  
Don't steer clear, open up your door  
Here am I, watching you approach me  
Don't fly by, stop and say hello

Chorus

While I'm here, hoping for a good sign  
Don't steer clear, turn and look my way  
Here am I, thinking maybe this time  
Don't fly by, come and make my day

Chorus

## **LOST IN YOUR LOVE**

*To be lost in your love  
Brings such joy to me  
Takes away my sorrow  
And sets my spirit free*

I don't know how it happened  
Was it destiny  
That we would share together  
This sweet mystery?

*Chorus*

This bliss that I am feeling  
Cannot be denied  
You make each moment special  
When I'm by your side

*Chorus*

Though we may do things we don't mean to do  
Say things that aren't really true  
After we've had a bad day  
Through it all this much I know  
Our love continues to grow  
And I've come to see all you give to me in so many ways  
Like the shore and the sea  
A door and its key  
We were made to be together

*Chorus*

## **WAITING IN THE WINGS**

*Waiting in the wings  
To make a start, to play your part  
Waiting in the wings  
Soon the time for you to shine will come*

The lines are well rehearsed  
And you have been well versed  
In the moves you must make  
The cues you must take  
From the first curtain call  
To the last curtain fall  
As the lines from the page  
Come alive once more on the stage

### *Chorus*

And when you hit the floor  
Will you leave them wanting more  
As they hang on every word  
And gasp at what they've heard?  
Or will they look away  
Wonder if they should stay  
When the time comes around  
Will you die or bring the house down?

### *Chorus*

## **ALL I HEAR**

I pick up the phone  
'Cause she said she'd be home  
But what can it mean?  
All I hear is her answer machine

*Where is my love?  
I miss her so much  
Where is my love?  
Why can't I get in touch with her now?*

Why can't I get through?  
What am I going to do?  
How long has it been?  
All I hear is her answer machine

### *Chorus*

I wish I could see her beautiful face  
And not have to be in this far away place  
Like a ship lost at sea I long to be  
Once more anchored in her quay  
But when there's no reply I wonder why  
And if I'll be left high and dry  
When I heard her say  
I could call her today  
Well I never dreamed  
All I'd hear was her answer machine

### *Chorus*

## ***THE JOURNEY***

When I started my journey  
I was hoping that somehow  
I would find a place for me  
And feel as I do now

When I took a wrong turning  
And lost my way  
It was all part of learning  
Just where my path lay

As I went on my journey  
I would look for the reason  
In all the things I would see  
Through the turning of the seasons

And sharing my feelings  
With friends on the way  
Gave the journey deeper meaning  
And a clue to where my hopes lay

Though some I met on my journey  
Didn't seem to want me there  
I was deemed an outsider  
And left to look elsewhere  
But then others I wish I  
Still knew to this day  
And the parting came too soon  
When we went our separate ways

Many a river would have been much too wide  
Without somebody to row me to the far side  
Many a mountain I could never have climbed  
Without somebody to throw me down a lifeline

If I had to leave all this  
At least I'd be leaving  
With what I've learned on my journey  
And I've come to believe in

Whether your dream comes true  
Or you miss your call  
It's friendship and love  
That mean most of all
